

PROFESSIONAL ULTRAVIOLET STERILISER

GMD 100 - DEFENDER

Professional germicide UV lamp steriliser is needed for all those tools that cannot be heat sterilised and to maintain the objects previously heat sterilised. Its wide opening makes it easy to place all brushes, including the larger ones.

Its aluminium walls ensure unlimited duration and resistance; it can be easily cleaned to always obtain perfect hygiene.

Its curved surfaces have been designed to reflect and concentrate the UV-C rays on the base to eliminate any dark corner and to ensure prompt sanitisation of all instruments.

An automatic safety microswitch turns off the UV lamp when the door is opened.

Metal grille upon request.

Available in the following colours:

- Silver
- White
- Gold
